Clarinet

ABOUT THE THESPIAN PROGRESSION LEVELS APPROACH

The **aim** of the system is to ensure that the students in our Group Sessions are progressing throughout their time with us. The progression levels will almost act like a scheme of work which will help to ensure that each branch is following a similar standard ensuring quality and progression is equal across all branches. The progression levels will eventually coincide with the requirements of an official grading board for the Performing Arts Discipline.

There are 8 progression levels for each discipline which will increase in complexity:

Level One -	A
Level Two -	C
Level Three -	H
Level Four -	I
Level Five -	E
Level Six -	V
Level Seven -	E
Level Eight -	D

As per our slogan, 'You **believed** it, together we **achieved** it!', when members first join our company they **believed** - they believed they could become a performer, they could learn their chosen discipline to the best of their ability, they could meet with other people with similar interests and enjoy their learning. By the end of their time with us, they will have **achieved** what they set out to.
